Agape Blitz 2012

June 24-30

July 9-14, 16-21, 23-28

August 6-11, 13-18

**Agape Church of Christ
Portland**

Agape Blitz began in 2007 as a one day service project for the Portland community. Since it's inception the Agape Church of Christ has partnered with local agencies, government service providers, and businesses to bless our community.

Over 700 volunteers have given more than 11,000 hours to rebuild homeless communities, abuse shelters, social service agencies, and public schools. We truly believe as Jeremiah 29:7 states, that God has called us to bless our cities.

Theological Reflection

Having Fun and Strengthening Relationships

Agape Blitz has morphed into a summer season of work projects. Beginning in 2012 the Agape Church of Christ plans to launch a new church in SE Portland and open Agape Blitz to 6 weeks of community service. Due to the expansion of this ministry and our successes with outside youth group mission trips last year we are offering opportunities for outside groups to join this ministry and develop skills to bless their own communities.

Joining Portland's Night Strike

Serving in the Community

During Agape Blitz participants will balance work projects in Portland with ministry to those living on the streets, worship, and theological discussion. The intent of Agape Blitz is to empower groups to freely serve and develop local outreach plans for their own cities.

Connecting with Those on the Margins of Society

Many groups have found that local mission trips are preferable for youth/campus groups and adult mission teams.
